Alfa Romeo, Fiat, Lancia, Opel, ... 1.9 - 2.0 JTDM, 1.9 - 2.0 CDTi

### IDLER ID-0030

The idler ID-0030 is supplied with a M8 bolt that has a 10 mm diameter shaft, and a washer.

Some engines have different size threaded holes. If so, you can use the original M10 bolt and the new washer.

By using either of them, the assembly is correct and there are not any problem.
